

Advancing the Understanding of Life on Earth

Teresa Mourad, Director of Education and Diversity Programs
Cliff Duke, Director of Science Programs

ESA Office of Education and Diversity Programs

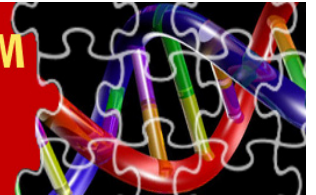

increase diversity within ecology-related professions and to improve the quality of ecology education at all levels.

DATA: DISCOVER, INVESTIGATE, INFORM

4th Life Discovery - Doing Science Education Conference

OCTOBER 19-21, 2017 - UNIVERSITY OF OKLAHOMA, NORMAN, OK

REEFS

Resources for Ecology Education Fair & Share

EcoEd Digital Library

- Ecology Field Trips
- Leadership Meetings
- Travel award to ESA Annual Meetings
- Undergraduate Research Fellowships
- Campus Chapters

**Four-Dimensional
Ecology Education
Framework | 4DEE**

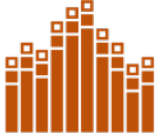

Scaling UP:
Continental Scale Ecology
Workshops

esa

A program of the Ecological Society of America
Advancing the understanding of life on earth

EcologyPlus				
Where Diversity Meets Opportunity	Mentoring & Networking	Explore Career Pathways	Access Opportunities	Overcome Institutional Barriers & Bias

Other Partners include individuals from:
Casey Trees; Morgan State University; Montgomery County Parks, MD;
Office of Energy and Sustainability; Montgomery County, MD;
University of Maryland University College

ESA Office of Science Programs

Vision: Ecological science that effectively meets the challenges of a changing world.

Mission: We connect the research and management communities, support the use of science to inform decision making, and build capacity among scientists.

Facilitate engagement

Conduct peer review

Build capacity

Synthesize
